

AMENDMENTS TO THE SPECIFICATION

Page 41, Example 13, please amend Sections A and C as follows.

A. A propellant free zolpidem formulation containing a polar solvent has the following formula:

Component	Percent (w/w)
Zolpidem tartrate	2.5
Propylene glycol	15
Glycerol	10
Bitter mask	0.2
Benzalkonium chloride	0.1
Citrate buffer (1N, pH6)	8
Ethanol	QS 100 [[mL]]

C. A propellant free zolpidem formulation in a mixture of a polar and a non-polar solvent has the following formula:

Component	Percent (w/w)
Zolpidem tartrate	0.5
<u>MIGLYOL®</u>	15
Lemon oil	10
Ethanol	QS to 100 [[mL]]

Page 42, Example 13, please amend Sections E and F as follows:

E. A propellant free zolpidem formulation in a non-polar solvent can be made according to the following formula:

Component	Percent (w/w)
Zolpidem tartrate	0.2
Lemon oil	0.1
<u>MIGLYOL®</u>	Qs to 100

F. A zolpidem formulation in a non-polar solvent with a propellant can be made according to the following formula:

Component	Percent (w/w)
Zolpidem tartrate	0.2
Lemon oil	0.1
<u>MIGLYOL®</u>	50
Butane	Qs to <u>100</u>
